Share the DCP-J140W across your home or office with wireless connectivity combined with print, copy and scan capabilities.

MULTI-TASKING

WITH PRINT, SCAN,
COPY CAPABILITIES

DCP-J140W

The DCP-J140W offers print, copy and scan capabilities with wireless network connectivity, enabling you to share the machine with several users.

Achieve impressive print speeds of up to 33 monochrome and 27 colour ppm (5ipm monochrome and 5ipm colour laser comparable) so you do not have to wait for your documents, whilst the 1.5 picolitre droplet size and up to 6,000dpi print resolution enable you to produce professional quality documents in-house.

Scan bound or irregular sized documents on the hinged flatbed scanner. Scan to email, file or to a mobile device using the iPrint&Scan application.

All Brother Inkjet Multi-Function Centres use an individual ink cartridge system. This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - reducing waste, protecting the environment and saving you money.

The DCP-J140W complies with the Energy Star environmental standard, ensuring low energy consumption and low noise levels.
