

## FaceKiosk-H13C

Android Multipurpose Facial Recognition Kiosk

# FaceKiosk-H13C[TD]

Android Multipurpose Facial Recognition Kiosk with Temperature & Mask Detection Module

Compatible with

#### **Overview**

FaceKiosk-H13C, our 13.3-inch touch screen multipurpose facial recognition Android Smart Kiosk, is designed to provide friendly and interactive user experience by incorporating fingerprint, label printing, QR code, and RFID module in it.

FaceKiosk-H13C offers multiple verification module to verify users' identity through facial recognition, fingerprint, smart card or hybrid verifications.

In addition to collecting and verifying the identity information, it also supports small label printing, two dimensional code scanning, and yet can be used as queuing machines as well as self-service machines.

Moreover, the hardware interface and diversified functions can meet various needs of different users in different scenarios.

ZKTeco EDK (Facial Recognition, Age, and Gender Assessment) based on the Android platform is combined with a touch screen for facilitating the rapid deployment of third-party apps, providing customers with high quality and stable hardware development environment.

Facekiosk-H13C is empowered by ZKTeco technology, it is compatible with ZKBioSecurity.

Facekiosk-H13C is an ideal solutions for visitor self-service counter, conference display or e-learning classes.

#### **Features**

- Supports various RFID format, ID card (standard), IC card (optional)
- Support Temperature Detection Module (Optional)
- Built with smart-phone grade touch panel, offers smooth and high-responsive operation experience
- Equipped with one of the industry-leading facial recognition technology bringing its anti-spoofing performance to a new height
- The combination of barcode and printer meet different customer needs
- Offers multiple integration options through LCDP SDK and API

## **Specifications**

500	Facial Recognition Algorithm	ZKFace 5.6 FAR≤1% FRR≤1%
9,500		
10,000	Facial Recognition Speed	<1s
100,000		
TCP/IP, Wi-Fi, Bluetooth, 3G/4G	Facial Recognition Distance	0.5m to 2m
13.3-inch capacitive touch screen, 1920*1080 pixels	Card Type	ID card, IC Card(optional)
ZKTeco Customized Computer Vision eight-core processor	QR Code Module	Dynamic Check-in or Check-out QR codes on the ZKBioSecurity QR code, PDF417, Data Matrix, MicroPDF417, Aztec scanning in third-party development projects
LTE FDD: B1/B2/B3/B4/B5/B7/B8/ B20/B28 JG/4G LTE TDD: B38/B39/B40/B41 WCDMA: B1/B2/B4/B5/B8 GSM: 850/900/1800/1900MHz		
	Label Printer	Line Thermal Printer Printing speed: 100mm/s (max.) Paper width: 80±0.5mm
BT2.1+EDR/3.0/4.1 LE/4.2 BLE	Operating Humidity	20% to 90%RH
2.4GHz, 802.11 b/g/n	Storage Temperature	-40 to 60°C (-40 to 140°F)
2-megapixel	Storage Humidity	20% to 90%RH
16GB eMMC	Dimensions (L*W*H)	1420*354*50mm (55.91*13.94*1.97ln)
2GB LPDDR3		
1*D145 TE card dat D\$222/495	Net Weight	43kg
1°'KJ45, 1F Card SIOT, K5232/485	Weight with packaging	48kg
Android 9.0

### Body Temperature Detection Specifications (FaceKiosk-H13C[TD] only)

Preventative Measures	Mask detection / Body temperature detection	
Temperature Measurement Distance	30 to 50cm (1to1.64ft)	
Temperature Measurement Accuracy	±0.3°C (±0.56°F)	
Temperature Measurement Range	34 to 45°C (93.2 to 113°F)
